

SP-1™ T&O

BioFertilizer

SP-1™ T&O is a stable, liquid biofertilizer product. It is a biologically diverse group of live micro-organisms, which, when successfully inoculated into the rhizosphere of growing plants, improves the availability and delivery of essential nutrients. Improvements to plant mineral nutrition leads to many benefits.

Key Benefits:

- Contains a blend of crop promoting bacillus bacteria
- Extracted humus and a proprietary herbal blend with increased potency
- A blend of algae, carbon substrates, vitamins and minerals that act as a food source for microbes and plants
- Better mineral nutrition for the plants
 - Improves conditions for more root growth and shoot growth
 - Optimizes conditions that give the plant greater resistance to stress
 - Improves water relations in the soil and in the plant
 - Reduces nutrient loss to the environment

Consult label for specific rates & application instructions.
