Product Description:

X-Xtra Iron is formulated to provide iron in a soluble form that supports fast green-up with no surge growth. X-Xtra Iron contains the three most essential nutrients for photosynthesis: Iron, Nitrogen and Sulfur. X-Xtra Iron is amine compatible and can be used with herbicides and pesticides as well as other Growth Products nutrients. X-Xtra Iron can be used for regular turf maintenance to promote rich green color and maintain strong root systems for high traffic areas and stress conditions. X-Xtra Iron can be used on turf, tree and ornamentals for correction of iron deficiencies and chlorosis.

Note: Avoid contact with unfinished wood, painted surfaces, masonry or concrete surfaces as this product may cause staining.
