

Companion® Maxx

LIQUID BIOLOGICAL FUNGICIDE

The Power of Bacillus

Companion® Maxx Liquid Biological Fungicide is a broad spectrum biological fungicide for the prevention and control or suppression of many soil borne and foliar diseases. Companion® Maxx Liquid Biological Fungicide contains a plant growth rhizobacterium, that quickly establishes beneficial colonies on the plant's roots and leaves. It protects the roots from invading pathogens, stimulates healthier roots and improves nutrient uptake.

Pioneer T&O BioFungicide • 20+ Years of Proven Efficacy

COMMON DISEASES TREATED

- Root/Crown Rots and Damping-Off
- Mildews and Molds
- Spots and Scabs
- Bacterial Blights
- Anthracnose
- Cankers

WHY ENV503?

Bacillus amyloliquefacians ENV503, a **DPH exclusive strain**, protects plant's roots/foliage from invading pathogens, stimulates healthier growth, and improves nutrient uptake.

CUSTOMER EXAMPLE

Bristol and Clifton GC – Bristol, United Kingdom

FEATURES

- Boosts the plant's natural immune response to fight disease.
- Produces natural antibiotics that block harmful pathogens.
- Improves nutrient uptake to promote growth and reduce stress.
- Compatible with traditional pesticide programs.
- Strengthens the plant's natural defenses for lasting protection.
